

# Think you've found a stray cat?

## Then try our free paper collars for stray cats

Is there a cat that has been hanging around your property or do you think a cat may be abandoned or lost?

Do you think it may be a stray cat?

### Then why not print this helpful paper collar?

This is a great way to check if the cat you are worried about has a home, and put the owners mind at rest if their cat keeps disappearing!

Before using the collar, please do not let the cat into your home or feed it for a 48 hour period while it is wearing this collar. This will encourage the cat to find its way back to somewhere that it is known.

A cat in reasonable condition will not be harmed by lack of food for this time period.

### Simple Instructions:

- Print out this template on your printer
- Write out your phone number on the collar
- Cut out the collar along the dotted line
- Have a short piece of sellotape within easy reach
- Place the collar around the cat's neck. You might need to distract the cat while you do this. Overlap the ends so the collar fits snugly and secure with the sellotape - you should be able to get two fingers comfortably between the collar and the cat's neck.
- If the cat removes the collar in a short time period please try again.
- After 48 hours, you can feed the cat or bring to Yellowstone Valley Animals Shelter

This cat has been visiting my property and I wonder if it may be a stray. Please contact me if it belongs to you.
